

HARDEN IS STILL AMONG US.

But He Will Soon Be a Memory of the Past Only.

TO BE SENT TO BRITISH COLUMBIA.

The Numerous Exile Will Be Sent Away on the Arawa Next Friday—He Visits His Friends, But Is Not Welcomed With Open Arms.

Francis Leo G. Harden will soon be only a dim, faint memory. He will have departed these shores, not to return until it suits his own will. Colorado Cottage will be vacant, and the exile from many countries will be a thing of the past as far as Hawaii is concerned.

All this is the result of the festive Harden's escapade last Friday afternoon. He was arrested during the evening, and a conference was held at which Attorney-General Smith, Deputy Marshal Brown, Mr. Dailey, Harden, and one or two members of the Dailey Company were present. It was decided then that Mr. Dailey and his wife would have to stay here in order to prosecute Harden.

Saturday, however, Minister Wodehouse had a talk with the police officials. It was agreed at that meeting to send Harden out of the country for good and all! Mr. Wodehouse was to guarantee his departure, and Harden was to tell all he knew of the robbery. On these grounds, Mr. Dailey was allowed to leave on the Australia.

Harden was said to have implicated young Fitzgerald as his accomplice in the hold up that he had engineered on Friday. Fitzgerald was arrested, and was held until yesterday afternoon, when he was released. His version of the affair is that the police have a grudge against him, and arrested him for spite, but when they found out that he was innocent, he was let go.

Saturday morning, it was thought that Harden was to be sent away on the Australia. The exile seemed jubilant at the thought of having his passage paid to America. But he was doomed to disappointment. Captain Houdette objected to taking him, on the ground that he was a pauper, and would not be allowed to land in the United States. It was then decided to hold him here until the departure of the Arawa on Friday next.

But in the meantime Harden thought he was going to leave. He asked to be allowed to bid his friends good-by, and Detective Boyle was detailed to accompany him on his farewell tour. Harden called on a number of his acquaintances, who shed bitter tears at the loss of such a nice young man. In the course of his peregrinations he met Charley Wilson. He jumped out of the carriage and greeted Wilson effusively, but the latter is said to have been very chilly to the young exile. Harden also went to call on his friend, Bob Wilcox. He went into the house and up the stairs, at the top of which he was met by Theresa Cartwright. She asked him what he wanted, and he said he had come to kiss the only Robert good-by.

"Get out of here," cried Theresa, "you can't come in my house." "It isn't your house," said F. L. G. H. "It belongs to my dear friend Wilcox."

"No, it doesn't," cried Theresa. "It's mine, and you've got to get out of it."

Detective Boyle appeared on the scene just then, and assisted Harden back to the carriage. Harden was then taken back to the station and locked up. By this time Captain Houdette's decision had been learned, and Harden's departure was delayed nearly a week. He took the matter philosophically, remarking that he "might as well be here as anywhere else, as long as his board and lodging were paid for."

They Like English.

Two American shipmasters—Captain Cutler, of the Klikitat, and Captain Rosebury, of the Robert Sudden—called at the office of this paper on Saturday and wished to enter a protest against the removal of Captain English, the pilot of Kahului, Maui, as they had heard that a petition had been sent to the authorities for his removal. They have frequently entered that port and found him fully competent in every respect for the place, and believe that no better pilot can be found.

Among recent inventions is an opera glass which can instantly be converted into a photographic camera.

HE Kamehamehas had another easy thing on Saturday afternoon. They were playing against the Hawaii's, and in the nearest manner possible they beat them to the tune of three to one. The only run the Hawaii's could make was in the ninth inning, and it did them no good whatever.

The Kamehamehas started the ball rolling in their half of the first inning. Mahuku flew out to Thompson, but Pahau got his base on an error of Willis, and went to second on a passed ball by Pryce. Koki got first on Clark's error, and Lindsay made a base hit to center, bringing Pahau and Koki home. The next two strikers were put out.

The Kamehamehas increased their score by one run in the fifth, when Lemon got his base on an error of Rosa's and was brought in by a long hit of Koki's.

In the ninth the Hawaii's made their only point. After one man was out, Cupid got his base on balls, and went to third on two errors of the Kamehamehas. He got home on Ruevsky's error, and the sympathizers of the team had a chance to cheer, but it was of short duration as the next two men went out in short order.

The official score is as follows:

NOTES OF THE GAME.

The presence of a policeman was only a slight check on the screaming abilities of the Kamehameha boys in the grand stand.

Willis, the first baseman for the Hawaii's, made a fine catch of a long foul in the third.

The Hawaii's seemed to have a large and varied assortment of Carter bats. The hole was very prominent all through the game.

The biggest crowd of the season was present, and the game was one of the best played yet.

Vida Thrum distinguished himself by catching a foul fly of Rosa's and saved some one a black eye.

Meheula had a sore arm and Lemon pitched very effectively in his place.

There were a number of kicks at the decisions of the umpires, and those in the grand stand claimed that they were favoring the Kamehamehas a trifle too much.

Cupid took McCriston's place in center field in the fifth inning.

Edison on one occasion had in his aquarium several gold fish, each of which had been made to swallow a tiny electric lamp. When the current was turned on the fish presented a remarkable appearance. All the minute details of the anatomy were presented to view.

Few people know that Fayal lace is made from the fibres of leaves of the bitter aloe, a relative of the common century plant. This lace is manufactured by women, and the necessary skill is so rarely attained that only about 25 persons on the islands—the Azores—can make it.

Homes at Pearl City!

THE OAHU RAILWAY & LAND CO.

Offer the Public Another Great Opportunity to Secure Homes in One of the Most Delightful Localities to be Found in the Paradise of the Pacific.

As a healthy resort—Pearl City has already established an enviable reputation. Many good citizens in this community have experienced the wonderful effect produced by a few days sojourn in that dry, cool atmosphere, and give grateful testimony to the relief they have almost instantly gained from severe and long continued attacks of asthma. Physicians acquainted with the climate of Pearl City recommend it as a natural sanitarium.

The Water Supply is Ample.

And can be increased to meet the needs of a population equal to the largest city in the world.

Prof. A. B. Lyons of Oahu College is our authority for stating that the water supply is the purest yet discovered in this country.

SPECIAL INDUCEMENTS TO EARLY SETTLERS!

For ninety days from date we will sell lots on SPECIAL TERMS favorable to bona-fide settlers. For a term of three months from date, lumber and all building materials will be supplied, and delivered at Pearl City at much lower price than ever before obtained.

For further particulars, call at this office or on any of the lumber dealers in this city. Those who now own lots as well as those who propose to become residents of that growing city, will do well to embrace this opportunity. Those who avail themselves of this offer, within the time named, will be entitled to, and will receive the following benefits:

For a term of ten years, this Company will carry such residents and their families from Pearl City to Honolulu in the morning (arriving a little before seven o'clock), and from Honolulu to Pearl City in the evening (leaving Honolulu station a little after five o'clock), for ten cents each way, a rate less than one cent per mile. The rates on all other passenger trains running during the day or night will be 1½ cents per mile first class, and 1 cent per mile second class.

A good school is about to be opened in the Peninsula, in the fine, large, new school-house erected by Mr. J. T. Waterhouse. Residents living at Pearl City heights, [above Pearl City station] and those having homes on the Peninsula, will be allowed to ride free on regular trains between Pearl City stations to and from the Peninsula.

Those who want to continue to send their children to schools in Honolulu, can have transportation on all regular trains to and from Pearl City, for the purpose of attending school at five cents each way for each pupil. This is equal to 24 to 26 miles ride for ten cents.

Equal inducements for those desiring to secure homes in this country have never before been offered to the public.

This Company has been requested from abroad to raise the price of all their unsold land in that locality.

Should a clearance sale be made to a syndicate, no opportunity like the present would again occur for the purchase of homes at Pearl City.

"A word to the wise is sufficient."
